

Khaled Ahmed

Information Systems Analyst | Process & Workflow Automation

khaled.ahmed@evoluo.dev | Riyadh, Saudi Arabia | <https://linkedin.com/in/khaled-ahmed-is> | <https://github.com/khaled-ahmed-is>

PROFESSIONAL SUMMARY

Information systems specialist bridging business needs and technical solutions. Experienced in building information systems and automating manual workflows to improve efficiency.

EDUCATION

B.Sc. in Information Systems, Imam University (2021-2025).

Field of specialization: Information Systems

CORE SKILLS

SQL, Business Analysis, Python, Process Automation, Databases, Requirements Gathering

TOOLS & TECHNOLOGIES

MySQL, Power Automate, Django, Excel, Lucidchart, Jira

PROJECTS & ACADEMIC EXPERIENCE

Student Information System

Role: Systems Analyst & Developer - Duration: 4 months

Designed and built a student information system handling enrollment, grades, and course registration with role-based access for students, instructors, and admins.

Tech stack: Django, MySQL, Bootstrap, Python

Outcome: Replaced spreadsheets for 300+ student records.

Workflow Automation Dashboard

Role: IS Developer - Duration: 2 months

Built a dashboard that models multi-step approval workflows, sends notifications, and reports on bottlenecks, replacing email-based approvals.

Tech stack: Python, Django, PostgreSQL, Chart.js

Outcome: Cut average approval time from 3 days to under 1 day.

TARGET ROLES

Systems Analyst, Business Analyst, IS Developer

ACHIEVEMENTS

- Digitized a paper-based registration process for a student club.
- Built a workflow dashboard that saved ~10 staff hours per week.
- Led requirements workshops for a 3-department system.
