

Mohammed Khaled

Data Scientist | Analytics & Machine Learning

mohammed.khaled@evolio.dev | Jeddah, Saudi Arabia | <https://linkedin.com/in/mohammed-khaled-ds> | <https://github.com/mohammed-khaled-ds>

PROFESSIONAL SUMMARY

Data scientist who turns raw data into clear, actionable insight. Experienced in building analytics dashboards and predictive models, and communicating findings to non-technical stakeholders.

EDUCATION

B.Sc. in Data Science, King Abdulaziz University (2021-2025).

Field of specialization: Data Science

CORE SKILLS

Python, Pandas, scikit-learn, SQL, Data Visualization, Statistics, Power BI

TOOLS & TECHNOLOGIES

Jupyter, Pandas, scikit-learn, Power BI, PostgreSQL, NumPy

PROJECTS & ACADEMIC EXPERIENCE

Campaign Analytics Dashboard

Role: Data Scientist - Duration: 3 months

Built an analytics dashboard that consolidates marketing campaign data, computes ROI and conversion metrics, and visualizes trends with interactive filters. Automated the weekly data refresh.

Tech stack: Python, Pandas, Power BI, SQL, Plotly

Outcome: Helped reallocate budget toward channels with 25% higher ROI.

TARGET ROLES

Data Scientist, Data Analyst, Machine Learning Engineer

ACHIEVEMENTS

- Built a forecasting model adopted by a campus retail club.
- Top-5 finalist in a regional data analytics hackathon.
- Completed 6 verified certificates in ML and statistics.
