

Zainab Al-Ahmad

IT Specialist | Support Systems & Infrastructure

zainab.alahmad@evoluo.dev | Medina, Saudi Arabia | <https://linkedin.com/in/zainab-alahmad-it> | <https://github.com/zainab-alahmad-it>

PROFESSIONAL SUMMARY

IT specialist focused on keeping systems and people running smoothly. Experienced in building helpdesk and asset-management tools and supporting end users.

EDUCATION

B.Sc. in Information Technology, Taibah University (2021-2025).

Field of specialization: Information Technology

CORE SKILLS

IT Support, Networking, SQL, Python, System Administration, Troubleshooting

TOOLS & TECHNOLOGIES

Windows Server, Active Directory, MySQL, PowerShell, Django, Zabbix

PROJECTS & ACADEMIC EXPERIENCE

IT Helpdesk System

Role: IT Developer - Duration: 3 months

Built an IT helpdesk system with ticket creation, prioritization, assignment, and SLA tracking, plus a knowledge base for common issues.

Tech stack: Django, MySQL, Bootstrap, Python

Outcome: Centralized 500+ tickets and cut response time by 40%.

Asset Management Dashboard

Role: IT Specialist - Duration: 2 months

Developed a dashboard to track hardware assets, software licenses, and assignments, with expiry alerts and exportable reports.

Tech stack: Python, Flask, PostgreSQL, Chart.js

Outcome: Tracked 250+ assets and flagged 18 expiring licenses.

TARGET ROLES

IT Specialist, Systems Administrator, IT Support Engineer

ACHIEVEMENTS

- Built a helpdesk system used by a 40-person department.
- Automated asset tracking, eliminating a monthly manual audit.
- Maintained 99% uptime for a lab server during final year.
